

COREQ (CONsolidated criteria for REporting Qualitative research) Checklist

Completed for MPS-TONURSJ-2026-49

Manuscript: Women's Reproductive Health and Agency After the 2006 Bantul Earthquake: A Retrospective Phenomenological Study

Page numbers refer to the revised manuscript. Supplementary File 1 contains representative semi-structured interview questions. Items are reported transparently; procedures not performed are stated as such in the manuscript.

Topic	Item No.	Guide Questions/Description	Reported on Page No.
Domain 1: Research team and reflexivity — Personal characteristics			
Interviewer/facilitator	1	Which author/s conducted the interview or focus group?	3
Credentials	2	What were the researcher's credentials? E.g. PhD, MD	3
Occupation	3	What was their occupation at the time of the study?	3
Gender	4	Was the researcher male or female?	3
Experience and training	5	What experience or training did the researcher have?	3
Domain 1: Research team and reflexivity — Relationship with participants			
Relationship established	6	Was a relationship established prior to study commencement?	3
Participant knowledge of the interviewer	7	What did the participants know about the researcher? e.g. personal goals, reasons for doing the research	3
Interviewer characteristics	8	What characteristics were reported about the interviewer/facilitator? e.g. bias, assumptions, reasons and interests in the research topic	3–4
Domain 2: Study design — Theoretical framework			
Methodological orientation and Theory	9	What methodological orientation was stated to underpin the study?	2
Domain 2: Study design — Participant selection			
Sampling	10	How were participants selected? e.g. purposive, convenience, consecutive, snowball	2
Method of approach	11	How were participants approached? e.g. face-to-face, telephone, mail, email	2
Sample size	12	How many participants were in the study?	2
Non-participation	13	How many people refused to participate or dropped out? Reasons?	2
Domain 2: Study design — Setting			
Setting of data collection	14	Where was the data collected? e.g. home, clinic, workplace	3
Presence of non-participants	15	Was anyone else present besides the participants and researchers?	3
Description of sample	16	What are the important characteristics of the sample? e.g. demographic data, date	2–3 (Table 1)
Domain 2: Study design — Data collection			
Interview guide	17	Were questions, prompts, guides provided by the authors? Was it pilot tested?	3; Supplementary File 1
Repeat interviews	18	Were repeat interviews carried out? If yes, how many?	3 (none conducted)
Audio/visual recording	19	Did the research use audio or visual recording to collect the data?	4
Field notes	20	Were field notes made during and/or after the interview or focus group?	3–4
Duration	21	What was the duration of the interviews or focus group?	3
Data saturation	22	Was data saturation discussed?	2 (no formal saturation threshold claimed)
Transcripts returned	23	Were transcripts returned to participants for comment and/or correction?	4
Domain 3: analysis and findings — Data analysis			
Number of data coders	24	How many data coders coded the data?	4
Description of the coding tree	25	Did authors provide a description of the coding tree?	4–5 (analytic process; Table 2)
Derivation of themes	26	Were themes identified in advance or derived from the data?	4

Topic	Item No.	Guide Questions/Description	Reported on Page No.
Software	27	What software, if applicable, was used to manage the data?	4
Participant checking	28	Did participants provide feedback on the findings?	4
Domain 3: analysis and findings — Reporting			
Quotations presented	29	Were participant quotations presented to illustrate the themes/findings? Was each quotation identified?	5–6
Data and findings consistent	30	Was there consistency between the data presented and the findings?	5–6
Clarity of major themes	31	Were major themes clearly presented in the findings?	4–6
Clarity of minor themes	32	Is there a description of diverse cases or discussion of minor themes?	5–6

Developed from: Tong A, Sainsbury P, Craig J. Consolidated criteria for reporting qualitative research (COREQ): a 32-item checklist for interviews and focus groups. *International Journal for Quality in Health Care*. 2007;19(6):349–357.

This checklist is submitted as a separate file and is not part of the main manuscript.
