Mention Contribution of Each Author to the Manuscript According to ICJME Criteria

La Rangki (LR): Conception and design, literature search, data interpretation, manuscript drafting, critical revision, final approval, and accountability for the work.

Kadek Ayu Erika (KAE): Study methodology, interpretation of findings, critical review and revision of the manuscript, final approval, and accountability for the work.

Rusdina Bte Ladju (RBL): Data interpretation, critical review of scientific content, manuscript revision, final approval, and accountability for the work.

The ICMJE recommends that authorship be based on the following 4 criteria:

- Substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data for the work; AND
- Drafting the work or revising it critically for important intellectual content; AND
- Final approval of the version to be published; AND
- Agreement to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

In addition to being accountable for the parts of the work he or she has done, an author should be able to identify which co-authors are responsible for specific other parts of the work. In addition, authors should have confidence in the integrity of the contributions of their co-authors.

All those designated as authors should meet all four criteria for authorship, and all who meet the four criteria should be identified as authors.
