Subject: Submission of manuscript of “Susceptibility Status of Aedes spp. to Pyrethroid Insecticides in Two Dengue-Endemic Subdistricts of Kendari, Indonesia: A Comparative Biochemical Study”

Dear Chief Editor,

I'm Mubarak, on behalf of my co-authors, I wish to submit a manuscript of an original article, “Susceptibility Status of Aedes spp. to Pyrethroid Insecticides in Two Dengue-Endemic Subdistricts of Kendari, Indonesia: A Comparative Biochemical Study” for consideration for publication in the Journal of Nepal Health Research Council.

This article addresses an important public health issue related to dengue vector control. While pyrethroid insecticides are widely used for fogging, there is limited local evidence regarding the susceptibility status of Aedes spp. mosquitoes in endemic areas. This study provides updated data on insecticide susceptibility using biochemical assays, which is essential for evidence-based vector control strategies. The findings contribute new insights into early biochemical variations that may indicate potential resistance development. This information is valuable for policymakers and public health practitioners to optimize dengue control programs and ensure the continued effectiveness of insecticides.

There are

- No. of Figures/Images: 0
- No. of Table: 2
- Other related info if any: none
- Ethical approval letter

Following are the documents attached herewith

- Authorship
- Declaration
- Manuscript “Susceptibility Status of Aedes spp. to Pyrethroid Insecticides in Two Dengue-Endemic Subdistricts of Kendari, Indonesia: A Comparative Biochemical Study”

Above document has been submitted in electronic and paper version (by post) to the JNHRC. If you have any questions or queries, you can write me at my email or call me at my phone number given below.

Please, acknowledge the received of this article to my email or contact address. Hoping for your kind co-operation in this regards.

Sincerely yours,

Name : Mubarak
