

ETHICAL APPROVAL STATEMENT

Title of the paper: Association Between Periodontitis and Cognitive Impairment or Neurodegenerative Disease: A Systematic Review and Meta-Analysis

This manuscript is a systematic review and meta-analysis based on previously published studies. It did not involve direct recruitment of human participants, direct collection of human biological samples, publication of identifiable human images, or animal experiments. Therefore, ethical approval and informed consent were not required.

All authors confirm that the manuscript was prepared in accordance with relevant ethical and publication standards.
