

**Address to the Editors-in-Chief:**

Prof. Viral N. Shah

Editor-in-Chief, Clinical Diabetology

## COVER LETTER

Dear Editor,

**Paragraph 1: Overview (Article title, type, design, major finding)**

We are pleased to submit our manuscript titled: "Short-Term Effectiveness of Bodyweight Soleus Push-Up in Reducing Blood Glucose Levels among Patients with Type 2 Diabetes Mellitus: A Quasi-Experimental Study", for consideration as a Research paper. This non-randomised quasi-experimental study evaluated a simple seated exercise intervention among patients with type 2 diabetes mellitus. The main finding showed that bodyweight soleus push-up exercise produced a greater short-term reduction in capillary blood glucose than non-weighted soleus push-up exercise. This finding may be relevant to the scope of Clinical Diabetology because it addresses a practical, low-cost, non-pharmacological adjunct that may support diabetes management in primary healthcare and community settings.

**Paragraph 2: Current submission and prior presentations disclosure**

This manuscript has not been previously published and is not under consideration in the same or substantially similar form in any other peer-reviewed media. The manuscript is prepared per the Guide for Authors. This work has not been presented previously in any scientific meeting.

**Paragraph 3: Authorship and conflicts**

*All authors listed have contributed sufficiently to the project to be included as authors, and all those who are qualified to be authors are listed in the author byline. All authors have read and approved the submitted version of the manuscript. Author contributions, funding, and conflict of interest are disclosed in the manuscript per the Journal guidelines. The authors declare that they have no conflict of interest. This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.*

**Paragraph 4: Potential reviewers (optional)**

We suggest the following potential reviewers for consideration by the Editorial Office: Dr. Suchada Saovieng, Mahidol University, Thailand, e-mail: [suchada.sao@mahidol.ac.th](mailto:suchada.sao@mahidol.ac.th); and Dr. Su Chi Lim, Singapore, e-mail: [lim.su.chi@nhghealth.com.sg](mailto:lim.su.chi@nhghealth.com.sg). To the best of our knowledge, the suggested reviewers are not from our institution, have expertise relevant to diabetes and exercise-related research, have not substantially worked with the authors in the past two years, and have no conflicts of interest that would interfere with their objectivity.

Sincerely,

**Corresponding author**
