

Please check lists below before submission on each check-box (☐)

General information

- ☐ Manuscript is double-spaced typing in A4-size pages using Microsoft word or Hancorn Hanword program.
- ☐ Manuscript is structured according to the following order
: In the original article, title page, abstract, the body (introduction, patients/materials and methods, results, and discussion), acknowledgements, references and legends with tables and figures.
- ☐ The identities of author (first or corresponding author's name, postal address, and institutional affiliations) in abstract, main text and the legends of tables or figures should be eliminated on submission.
- ☐ In general, documents should use Arabic numerals, the metric system, and the international system of units (SI unit) for laboratory data.

Title page

- ☐ Main title is concise and informative using 15 words and less.
- ☐ If necessary, the running title is provided. It should be written 60 letters and less with phrase type.
- ☐ Each author's full name and institutional affiliations should be arranged according to priority of superscripts.
- ☐ The name, full postal address, telephone and facsimile numbers and E-mail address of the corresponding author is provided.

Abstract

- ☐ Should not use informal or nonstandard abbreviation.
- ☐ The first letter of each word in the title is the capital letter except preposition, article, and conjunction.
- ☐ A structured abstract of 200-250 words is described under the following subheadings without line-feed: purpose, materials and methods, results, and conclusion.
- ☐ A list of key words should be placed below the abstract using MeSH terms within 10 words.
- ☐ Tables, references or footnotes should not be used in the abstract.

Main text

- ☐ In general, the use of capital letters should be limited proper nouns (e.g., the names of specific people, places, and organizations) and abbreviations.
- ☐ The sources of special chemical reagents, drugs or preparations should be provided (i.e., the name and exact location of the source, among others).
- ☐ The context is consistent from 'materials and methods' to 'discussions'.
- ☐ Avoid text-bookish enumeration irrelevant this study on results and discussions.
- ☐ Misspelling and word spacing error should be corrected.

References

- ☐ References should be in English, numbered consecutively throughout the text, and compiled in the reference list of the paper.
- ☐ In the text, the number of references should be serially indicated by Arabic numerals.
- ☐ List all authors if the number of authors is 6 and less. List first six authors followed by "et al." if the number of authors is 7 or more.
- ☐ Journal titles are abbreviated in accordance with the style of Index Medicus.
- ☐ References should be limited to 40 for original articles.
- ☐ The same reference should not be written twice as different number.
- ☐ The references style (volume, pages, spacing of the words, and punctuation marks) is according to instructions for authors.

Tables, Figures and Legends

- ☐ Tables and figure should be in English and Arabic numerals.
- ☐ The tables and legends for figure are concise, understandable and informative.

- ☐ Each table must be simple and typed on a separate page with its heading above it.
- ☐ The title of table should be concise and written by phrase type.
- ☐ In the title of table, the first letters of noun and adjective are capital letter.
- ☐ The contents of each cell of table should be typed double-spaced, left alignment. Only each first letter of contents is permitted to write with capital letter.
- ☐ Abbreviations can be used in tables or figure and should have footnotes. Footnotes should be expressed in the order of *, †, ‡, §, ||, ¶, **.
- ☐ Vertical line should be avoided in tables.
- ☐ If the figure is the histologic photograph, staining method and magnification should be provided. (H&E stain, ×400)
- ☐ Figure legends should be typed double-spaced on a separate sheet. Symbols, arrows, and letters should be used to indicate parts of illustrations.
